PROJECT CASE STUDY

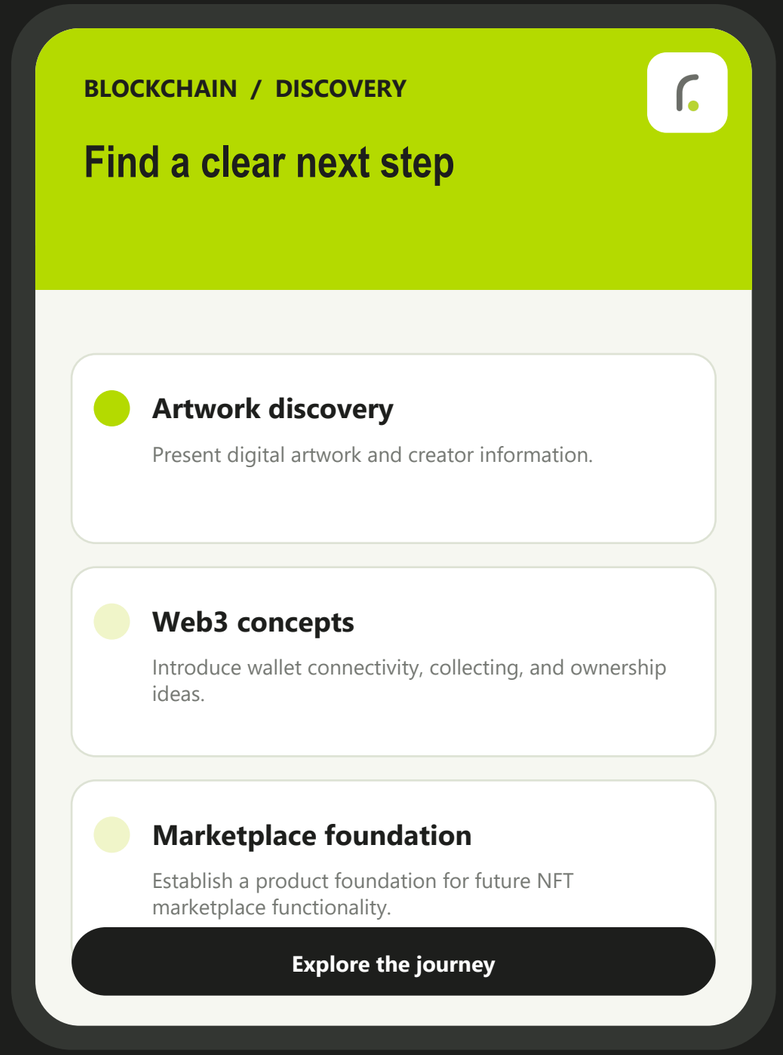
Digible

Digital art and Web3 marketplace concept

A digital-art discovery and Web3 marketplace concept presenting creator content, NFT collections, and wallet-connection ideas.

DOCUMENTED STATUS

Product prototype; not a production NFT marketplace



Illustrative interface based on documented project scope

The project in brief

Digible is a digital-art discovery concept connecting creator stories, digital artwork, and Web3 ideas in a visually led experience. The documented scope introduces digital collecting, NFT collections, wallet connectivity, blockchain ownership concepts, and a foundation for future marketplace work.

PROJECT CHALLENGE

A digital-art product needs to make artwork and creator information easy to explore while explaining unfamiliar Web3 concepts without implying that every marketplace action is already live.

01 / PLATFORM

Digital art and Web3 marketplace concept

02 / APPROACH

The concept pairs artwork discovery and creator presentation with clearly bounded wallet and ownership ideas.

03 / STATUS

Product prototype; not a production NFT marketplace

The summary describes documented project scope; it does not claim unverified results.

A clearer route through the challenge

A digital-art product needs to make artwork and creator information easy to explore while explaining unfamiliar Web3 concepts without implying that every marketplace action is already live.

DESIGN INTENT

The concept pairs artwork discovery and creator presentation with clearly bounded wallet and ownership ideas.

Project scope

Digible is documented as a product prototype, not a fully operational production NFT marketplace. No live minting, trading, or ownership outcome is claimed.

Documented status

Product prototype; not a production NFT marketplace

Turn the brief into a coherent experience

The concept pairs artwork discovery and creator presentation with clearly bounded wallet and ownership ideas.

01	**Artwork discovery**	Present digital artwork and creator information.
02	**Web3 concepts**	Introduce wallet connectivity, collecting, and ownership ideas.
03	**Marketplace foundation**	Establish a product foundation for future NFT marketplace functionality.

Three capabilities shape the product

A visual index of the documented features in this project.

01

Artwork discovery

Present digital artwork and creator information.

Web3 concepts

Introduce wallet connectivity, collecting, and ownership ideas.

Marketplace foundation

Establish a product foundation for future NFT marketplace functionality.

The cards summarize the project brief; they do not represent measured outcomes.

From discovery to a considered next step

The four stages below follow the project’s documented workflow.

Discover artwork

Browse digital art and collections.

Meet creators

Review creator-focused content.

Explore Web3

Understand wallet and ownership concepts.

Consider collecting

Review the marketplace concept.

Workflow steps are documented journey descriptions, not evidence of completed or live transactions.

The documented product surface

A structured view of the feature set and its stated boundary.

Artwork discovery

Present digital artwork and creator information.

Web3 concepts

Introduce wallet connectivity, collecting, and ownership ideas.

Marketplace foundation

Establish a product foundation for future NFT marketplace functionality.

Scope boundary

Digible is documented as a product prototype, not a fully operational production NFT marketplace. No live minting, trading, or ownership outcome is claimed.

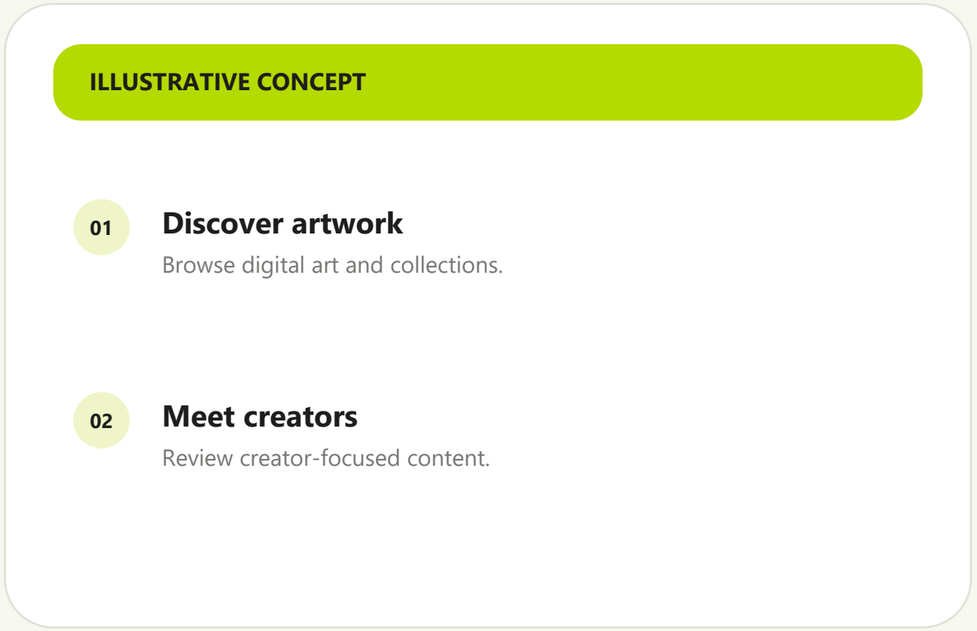
Artwork discovery

Present digital artwork and creator information.

DOCUMENTED SCOPE

Digible is documented as a product prototype, not a fully operational production NFT marketplace. No live minting, trading, or ownership outcome is claimed.

Illustrative page concept; not a screenshot of a live product.



07 / FEATURE SPOTLIGHT 2

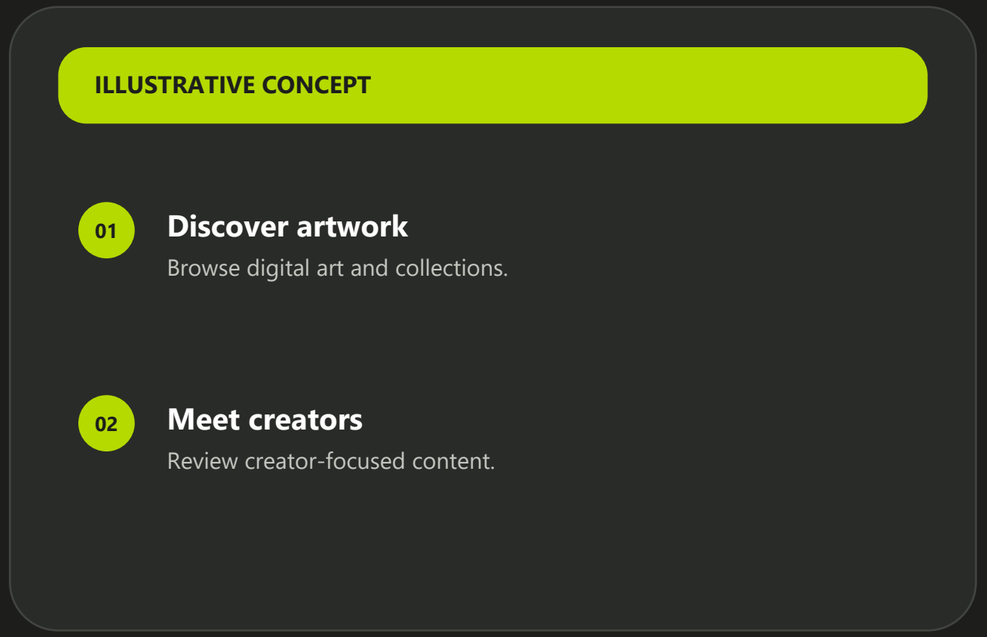
Web3 concepts

Introduce wallet connectivity, collecting, and ownership ideas.

DOCUMENTED SCOPE

Digible is documented as a product prototype, not a fully operational production NFT marketplace. No live minting, trading, or ownership outcome is claimed.

Illustrative page concept; not a screenshot of a live product.



07 / FEATURE SPOTLIGHT 3

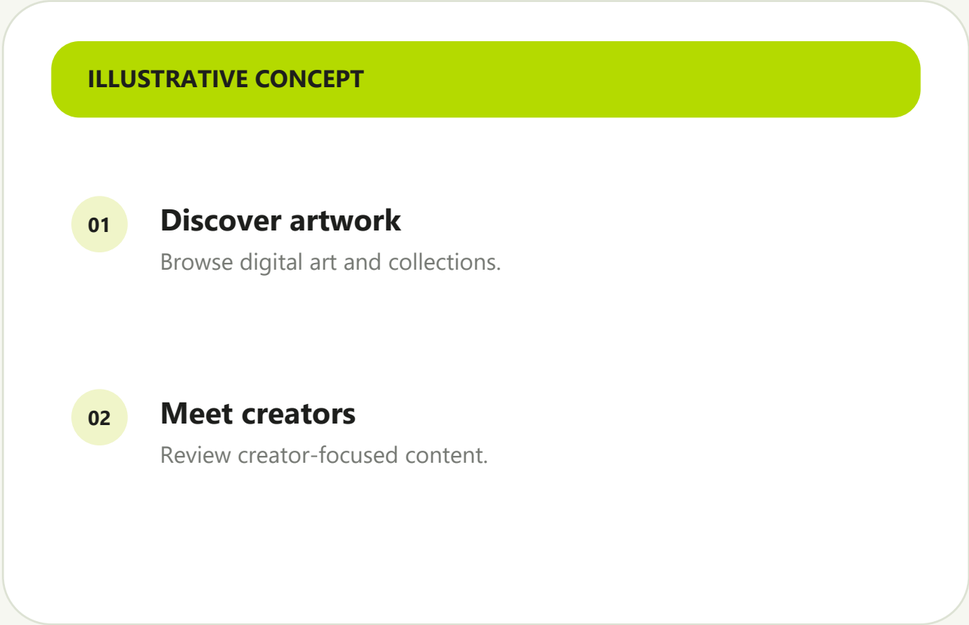
Marketplace foundation

Establish a product foundation for future NFT marketplace functionality.

DOCUMENTED SCOPE

Digible is documented as a product prototype, not a fully operational production NFT marketplace. No live minting, trading, or ownership outcome is claimed.

Illustrative page concept; not a screenshot of a live product.



How the stages connect

A storyboard view of the documented journey, shown without invented users or outcomes.

01

Discover artwork

Browse digital art and collections.

02

Meet creators

Review creator-focused content.

03

Explore Web3

Understand wallet and ownership concepts.

04

Consider collecting

Review the marketplace concept.

The sequence represents documented product intent; it does not imply a live customer transaction.

One product, connected capabilities

The feature groups below are presented as a conceptual map, not a technical architecture.

Artwork discovery

Present digital artwork and creator information.

Web3 concepts

Introduce wallet connectivity, collecting, and ownership ideas.

Marketplace foundation

Establish a product foundation for future NFT marketplace functionality.

Relationships are illustrative and do not claim integrations or implementation details.

Separate the challenge from the solution

This comparison keeps the project problem and documented product response in view.

01 / CHALLENGE

A digital-art product needs to make artwork and creator information easy to explore while explaining unfamiliar Web3 concepts without implying that every marketplace action is already live.

02 / APPROACH

The concept pairs artwork discovery and creator presentation with clearly bounded wallet and ownership ideas.

The product, from entry point to next step

A simple blueprint drawn from the documented experience and feature set.

CONTINUE

Discover artwork

Browse digital art and collections.

Artwork discovery

Present digital artwork and creator information.

Consider collecting

Review the marketplace concept.

What the brief says

A concise reference for the product concept, its status and its documented scope.

Industry

Blockchain

Product

Digital art and Web3 marketplace concept

Status

Product prototype; not a production NFT marketplace

Scope

Digible is documented as a product prototype, not a fully operational production NFT marketplace. No live minting, trading, or ownership outcome is claimed.

Questions to validate before release

These are review recommendations, not completed project work or tested results.

User needs

Confirm the intended audience, core tasks and acceptance criteria.

Content clarity

Review language, labels and decision points for the relevant product context.

Responsive behavior

Test supported screen sizes, navigation and layouts on target devices.

Quality checks

Validate accessibility, error handling, privacy and operational expectations.

Scope matters as much as features

This summary reflects the documented project scope and does not add unsupported outcomes.

Digible is documented as a product prototype, not a fully operational production NFT marketplace. No live minting, trading, or ownership outcome is claimed.

Documented status

Product prototype; not a production NFT marketplace

No unverified outcomes

No performance, customer, financial or operational results are claimed by this case study.

What comes before production

These general review areas are recommendations, not capabilities claimed as delivered.

Validate requirements

Confirm scope, acceptance criteria and user needs.

Review privacy and security

Define appropriate protections and operational controls.

Verify integrations

Confirm required external systems and validate them before launch.

Plan operations

Establish ownership, support, monitoring and maintenance responsibilities.

The concept at a glance

A digital-art discovery and Web3 marketplace concept presenting creator content, NFT collections, and wallet-connection ideas.

Artwork discovery

Present digital artwork and creator information.

Web3 concepts

Introduce wallet connectivity, collecting, and ownership ideas.

Marketplace foundation

Establish a product foundation for future NFT marketplace functionality.

Documented status: Product prototype; not a production NFT marketplace
