concept

STATUS

Product prototype

Project overview

A digital art discovery concept presenting creator content, NFT collections, wallet connectivity, and future marketplace workflows.

Project narrative

Digible is a digital art discovery and Web3 marketplace concept for connecting creators, collectors, and digital culture. Its documented scope combines artwork discovery, creator-focused content, marketplace presentation, wallet-connection concepts, and smart-contract foundations.

DOCUMENTATION NOTE

This summary uses the project information currently documented by Ramlogics. Unreported features, metrics, and outcomes are not assumed.

Documented scope and status

Product focus

- Artwork discovery: Present digital art and creator information.
- Web3 concepts: Introduce wallet connectivity and ownership concepts.
- Prototype scope: Marketplace and smart-contract features are foundations for future work.

Current status

Product prototype

Project focus

Product prototype; not a production NFT marketplace.

SOURCE BASIS

Portfolio and project notes available to Ramlogics at the time of preparation. No performance claims or client outcomes are added without source evidence.
