PROJECT CASE STUDY

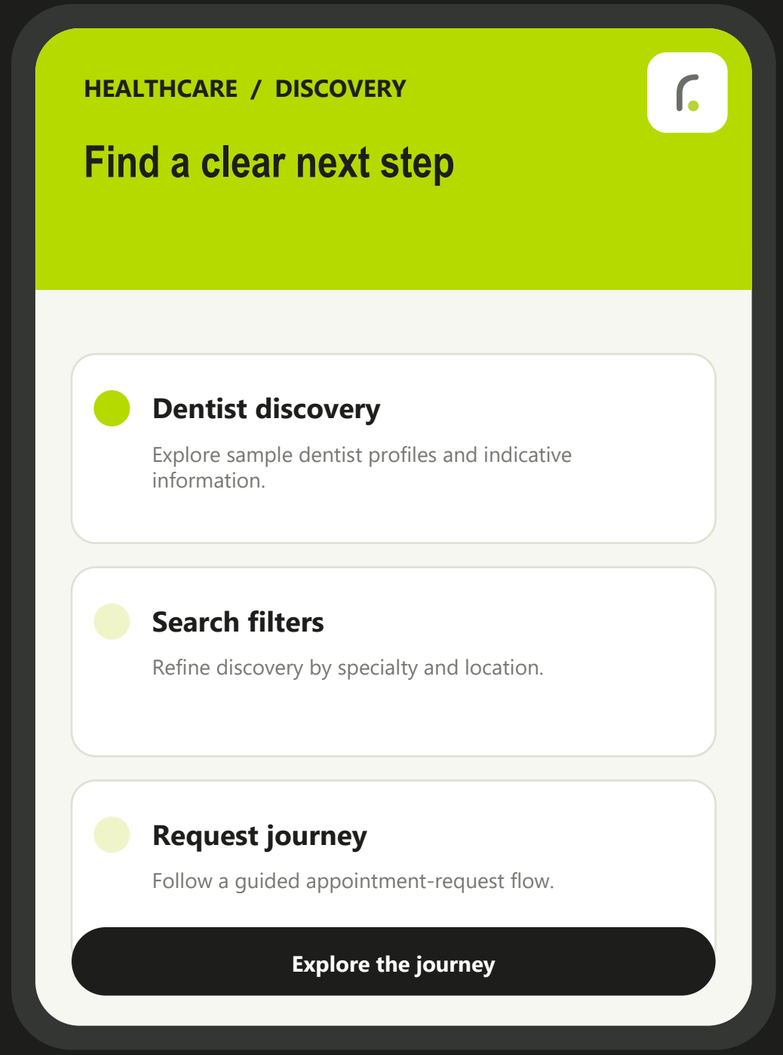
SensoCare

Australian dental discovery experience

An Australian dental discovery experience with sample dentist profiles, specialty and location filters, and a guided appointment-request flow.

DOCUMENTED STATUS

Dental discovery concept; sample profiles are illustrative



Illustrative interface based on documented project scope

The project in brief

SensoCare is an Australia-focused dental discovery concept designed to make finding a suitable dentist clearer and more reassuring. Visitors can explore sample dentist profiles, filter by specialty and location, review indicative information, and follow a guided appointment-request journey.

PROJECT CHALLENGE

People need a straightforward way to find dental options that fit their location and interests, with enough context to decide what to explore next.

01 / PLATFORM

Australian dental discovery experience

02 / APPROACH

A calm discovery experience combines location and specialty filters, sample profiles, indicative details, and a guided request flow.

03 / STATUS

Dental discovery concept; sample profiles are illustrative

The summary describes documented project scope; it does not claim unverified results.

A clearer route through the challenge

People need a straightforward way to find dental options that fit their location and interests, with enough context to decide what to explore next.

DESIGN INTENT

A calm discovery experience combines location and specialty filters, sample profiles, indicative details, and a guided request flow.

Project scope

Profiles and availability are illustrative. SensoCare is a discovery concept and does not verify practitioner credentials, provide clinical care, confirm appointments, or claim patient outcomes.

Documented status

Dental discovery concept; sample profiles are illustrative

Turn the brief into a coherent experience

A calm discovery experience combines location and specialty filters, sample profiles, indicative details, and a guided request flow.

01	**Dentist discovery**	Explore sample dentist profiles and indicative information.
02	**Search filters**	Refine discovery by specialty and location.
03	**Request journey**	Follow a guided appointment-request flow.

Three capabilities shape the product

A visual index of the documented features in this project.

01

Dentist discovery

Explore sample dentist profiles and indicative information.

Search filters

Refine discovery by specialty and location.

Request journey

Follow a guided appointment-request flow.

The cards summarize the project brief; they do not represent measured outcomes.

From discovery to a considered next step

The four stages below follow the project’s documented workflow.

Choose a location

Start with an Australian location.

Refine by specialty

Filter the sample dentist profiles.

Review a profile

Read the indicative information presented.

Request an appointment

Continue through the guided request flow.

Workflow steps are documented journey descriptions, not evidence of completed or live transactions.

The documented product surface

A structured view of the feature set and its stated boundary.

Dentist discovery

Explore sample dentist profiles and indicative information.

Search filters

Refine discovery by specialty and location.

Request journey

Follow a guided appointment-request flow.

Scope boundary

Profiles and availability are illustrative. SensoCare is a discovery concept and does not verify practitioner credentials, provide clinical care, confirm appointments, or claim patient outcomes.

07 / FEATURE SPOTLIGHT 1

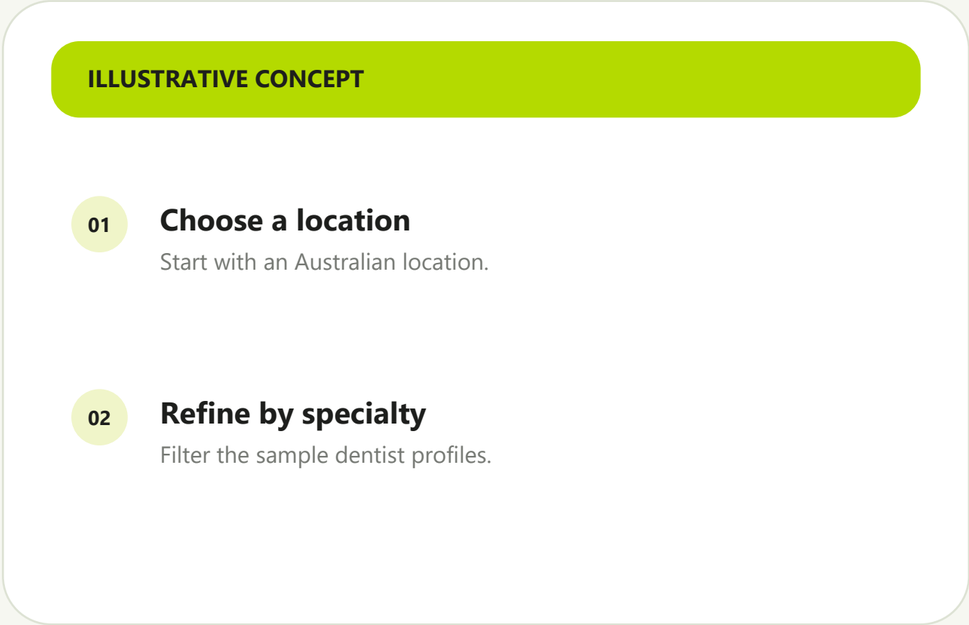
Dentist discovery

Explore sample dentist profiles and indicative information.

DOCUMENTED SCOPE

Profiles and availability are illustrative. SensoCare is a discovery concept and does not verify practitioner credentials, provide clinical care, confirm appointments, or claim patient outcomes.

Illustrative page concept; not a screenshot of a live product.



07 / FEATURE SPOTLIGHT 2

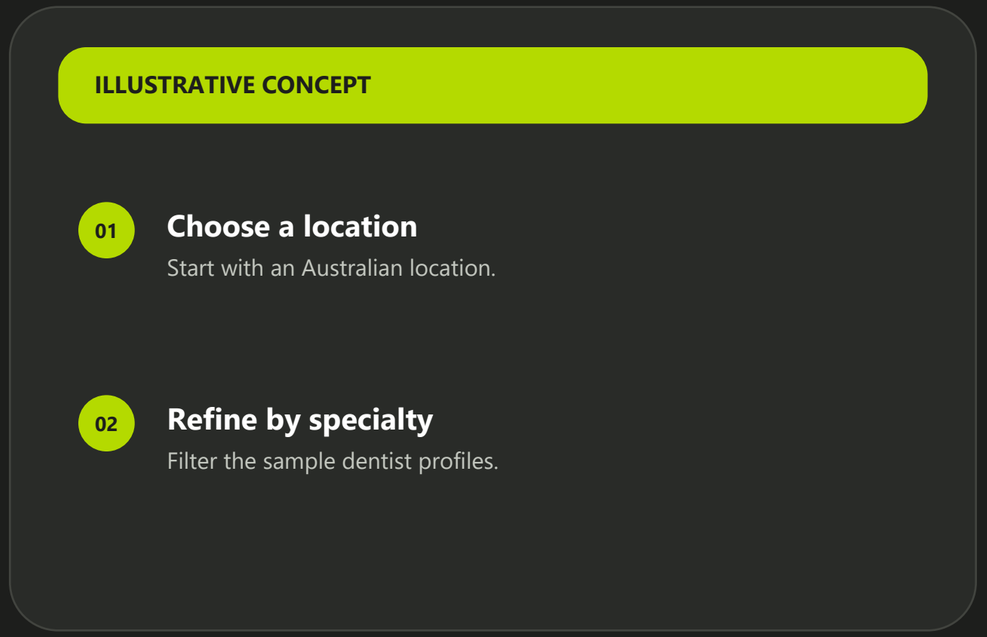
Search filters

Refine discovery by specialty and location.

DOCUMENTED SCOPE

Profiles and availability are illustrative. SensoCare is a discovery concept and does not verify practitioner credentials, provide clinical care, confirm appointments, or claim patient outcomes.

Illustrative page concept; not a screenshot of a live product.



07 / FEATURE SPOTLIGHT 3

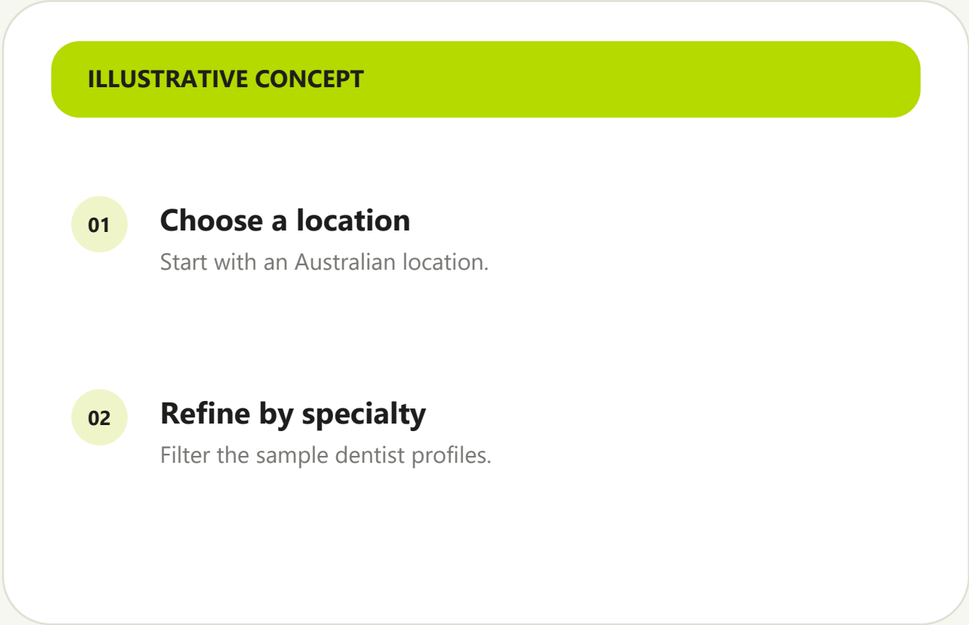
Request journey

Follow a guided appointment-request flow.

DOCUMENTED SCOPE

Profiles and availability are illustrative. SensoCare is a discovery concept and does not verify practitioner credentials, provide clinical care, confirm appointments, or claim patient outcomes.

Illustrative page concept; not a screenshot of a live product.



How the stages connect

A storyboard view of the documented journey, shown without invented users or outcomes.

01

Choose a location

Start with an Australian location.

02

Refine by specialty

Filter the sample dentist profiles.

03

Review a profile

Read the indicative information presented.

04

Request an appointment

Continue through the guided request flow.

The sequence represents documented product intent; it does not imply a live customer transaction.

One product, connected capabilities

The feature groups below are presented as a conceptual map, not a technical architecture.

Dentist discovery

Explore sample dentist profiles and indicative information.

Search filters

Refine discovery by specialty and location.

Request journey

Follow a guided appointment-request flow.

Relationships are illustrative and do not claim integrations or implementation details.

Separate the challenge from the solution

This comparison keeps the project problem and documented product response in view.

01 / CHALLENGE

People need a straightforward way to find dental options that fit their location and interests, with enough context to decide what to explore next.

02 / APPROACH

A calm discovery experience combines location and specialty filters, sample profiles, indicative details, and a guided request flow.

The product, from entry point to next step

A simple blueprint drawn from the documented experience and feature set.

Healthcare

Product

Australian dental discovery experience

Status

Dental discovery concept; sample profiles are illustrative

Scope

Profiles and availability are illustrative. SensoCare is a discovery concept and does not verify practitioner credentials, provide clinical care, confirm appointments, or claim patient outcomes.

Questions to validate before release

These are review recommendations, not completed project work or tested results.

User needs

Confirm the intended audience, core tasks and acceptance criteria.

Content clarity

Review language, labels and decision points for the relevant product context.

Responsive behavior

Test supported screen sizes, navigation and layouts on target devices.

Quality checks

Validate accessibility, error handling, privacy and operational expectations.

Scope matters as much as features

This summary reflects the documented project scope and does not add unsupported outcomes.

Profiles and availability are illustrative. SensoCare is a discovery concept and does not verify practitioner credentials, provide clinical care, confirm appointments, or claim patient outcomes.

Documented status

Dental discovery concept; sample profiles are illustrative

No unverified outcomes

No performance, customer, financial or operational results are claimed by this case study.

What comes before production

These general review areas are recommendations, not capabilities claimed as delivered.

Validate requirements

Confirm scope, acceptance criteria and user needs.

Review privacy and security

Define appropriate protections and operational controls.

Verify integrations

Confirm required external systems and validate them before launch.

Plan operations

Establish ownership, support, monitoring and maintenance responsibilities.

The concept at a glance

An Australian dental discovery experience with sample dentist profiles, specialty and location filters, and a guided appointment-request flow.

Dentist discovery

Explore sample dentist profiles and indicative information.

Search filters

Refine discovery by specialty and location.

Request journey

Follow a guided appointment-request flow.
