PROJECT CASE STUDY

SheltorHouse

Dubai commercial property discovery concept

A Dubai-focused commercial property discovery concept with category and location filtering, buyer enquiries, and owner listing workflows.

DOCUMENTED STATUS

Illustrative interface based on documented project scope

The project in brief

SheltorHouse is a commercial property marketplace concept for buyers exploring Dubai property for sale. The documented experience covers offices, warehouses, land, godowns, and farmhouses, with location and price filters, property details, buyer enquiries, member accounts, and owner listing management.

PROJECT CHALLENGE

Commercial property categories and locations can be difficult to compare in a broad catalogue. Buyers and owners need clear routes from discovery to a property enquiry or listing update.
